PRACTICAL USE OF THE FIDIC 1999 EDITIONS **& MDB'S HARMONIZED CONSTRUCTION CONTRACT – 2006 EDITION**

Providing Essential Know-How for working on Future International Projects

OVERVIEW

The new FIDIC Conditions of Contracts are recommended by the European Commission throughout Central and Eastern Europe and are becoming the international contractual language of the 21st Century. FIDIC Conditions of Contracts are increasingly being adopted by IFI's and private clients worldwide.

This practical training course, provided by professional engineers with extensive international experience, will primarily be based upon the New FIDIC suite of documents produced in September 1999 namely:

- a) Conditions of Contract for Construction (New Red Book)**
- b) Conditions of Contract for Plant and Design Build (New Yellow Book)**

The course is designed to give the delegates a sound grounding in the practical use of these documents. Throughout the seminar there will be opportunities for questions, and where appropriate, case studies will be introduced.

SEMINAR TUTOR:

The tutor is provided by European Construction Ventures, ECV, in collaboration FIDIC. ECV specializes in training and management consultancy to the international construction and infrastructure industries. The ECV tutors have provided over 150 training courses throughout Europe in the last 3 years on the use of FIDIC documents.

Anthony Glover AMICE
Director, ECV

COURSE MATERIALS

All delegates will be provided the following materials, in English:

- **Course Work Book, which contains all the tutors overheads**
- **Course Exercises to be used within the course**
- **FIDIC Conditions of Contract for Construction (1999 edition)**
- **FIDIC Conditions of Contract for Plant & Design-Build (1999 edition)**

WHO SHOULD ATTEND?

The seminar provides the necessary knowledge for professionals from Government Ministries and Agencies, Private Sector Employers, Consulting Engineers, Contractors, Quantity Surveyors, Architects, Legal Advisers and all involved with the next generation of International Projects. It is particularly important to those involved in preparing or managing infrastructure projects financed under EU programmes such PHARE, ISPA and Cohesion Fund
